FROSTY CHEER

Toast the season with loops and spirals of glitter twigs and a fresh assortment of evergreens. A red glitter bell rings in the celebration.

HOLIDAY TRADITIONS

A tin oval antiqued container with white pine, cedar, and Douglas is complimented by a burgundy ribbon and a pair of pomegranate ornaments. Sprays of silver dollar, an accent of glitter berry branch and two matching tapers will put that touch of elegance on your holiday table.

JOYFUL HARVEST

A pomegranate taper is centered among a bed of cedar and Douglas evergreens accented with pine cones and ribbon loops. Sprigs of gooseberries, beaded fruit picks and grape clusters make a tasteful statement for the table or mantle.

GIFT OF WHIMSY

Red ornamental balls, pine cones, fresh white pine, cedar and Douglas overflow in this keepsake container.

BERRIES AND CREAM

This long and low arrangement is great for table or mantle piece. Berry tapers with matching metallic balls. Three cream astilbe and gold trimmed cream bow/loops are nicely accented by white pine, cedar and Douglas fir.

STAR SHINE

White pine, cedar, and Douglas fir fill this silver cube. Royal blue ornaments and berry spray with stems of silver acacia put the 'shine' in this arrangement.
